SUMMARY

Experienced Software Developer with 3 years of expertise in full-stack web development. Skilled in building and maintaining software applications, creating custom reports, and developing data visualizations to support business needs. Known for improving workflows and delivering user-friendly solutions.

EXPERIENCE

Software Developer

ACI Limited | Dhaka, Bangladesh   **February 2023 – Present**

· Designed, developed, and maintained critical software applications for ACI Motors, ACI Toiletries and ACI Formulations, resulting in a 30% increase in operational efficiency.
· Developed software applications and modules using C# and ASP.NET, ensuring adherence to coding standards and best practices.
· Developed and maintained custom reports, dashboards, and data visualizations to support data-driven decision-making leading to a 25% improvement in strategic planning accuracy.
· Provided timely technical support, resolving software issues promptly and maintaining a 95% satisfaction rate among end-users.
· Successfully integrated new software solutions with existing systems, ensuring seamless data flow and interoperability.

Junior Software Engineer

Leads Corporation limited | Dhaka, Bangladesh   **May 2022 – January 2023**

· Improved software applications, resulting in a 10% boost in overall system performance.
· Played a key role in implementing new features, resulting in a 20% increase in user engagement.
· Actively participated in agile development processes, contributing to a 25% reduction in project completion time.
· Conducted rigorous testing and debugging activities, identifying and fixing software defects, ensuring a 98% defect-free software release.
· Assisted in the development of a client-facing application, reducing bug reports by 30% through thorough testing and debugging, and collaborated with senior engineers to improve software functionality

Software Engineer

E-commerce Platform (Ajkerdeal.com) | Dhaka, Bangladesh   **April 2021 – October 2021**

· Contributed to the enhancement of the e-commerce platform, resulting in a 30% improvement in website usability.
· Initiated and executed front-end development tasks, specifically in UI design, yielding a significant 20% increase in user satisfaction.
· Worked closely with cross-functional teams to gather requirements, provide technical insights, and ensure alignment between business needs and software development efforts.
· Conducted in-depth research on emerging technologies and industry trends, actively implementing innovative solutions that resulted in a substantial enhancement of the team's collective knowledge.
· Developed and deployed enterprise-level applications using ASP.NET MVC, C#, and SQL Server, leading to a 35% increase in system efficiency and a 20% reduction in operational costs over a one-year period.
